Middle Center To Outer Edge will measure 4 inches, this will complete the base of the bag. You will now begin the body of the bag::

Crossed DC Stitch: This will be a 2 stitch repeat worked throughout the body of the bag. There are many online tutorials on how to work the crossed DC stitch, basically you will skip a stitch, DC in next stitch then working in the skipped stitch you will DC giving the stitch a criss cross pattern.

Work The Body:

Round 16- Work in Crossed DC Stitch Around--45 Stitch Clusters, do not join, place marker to mark beginning of round.

Round 17- 30 - repeat Trinity Stitch Around

Piece should measure 12 inches from beginning base to last round when laid flat

Spring Market Bag

Join CC color for strap and sc across 10 st, ch 1 turn- 9 sc

Row 2- sc across, ch 1 turn-- 9 sc

Row 3- 30 - Sc across, ch 1 turn- 9 sc

When finished with row 30, strap should measure 15 inches long. You can increase or decrease rows based on how long you want the strap to measure. Fasten off leaving long enough tail to stitch end of row 30 to other side of bag.

To attach other side of strap, count 30 stitches then sew other side of strap to the next 9 stitches.

You can leave the bag as is and it will look awesome, or you can attach CC yarn and do a round of sc working in the ends of the strap also to give a more clean look and add more stability to strap.
